IT & WEB
ILLUSTRATION

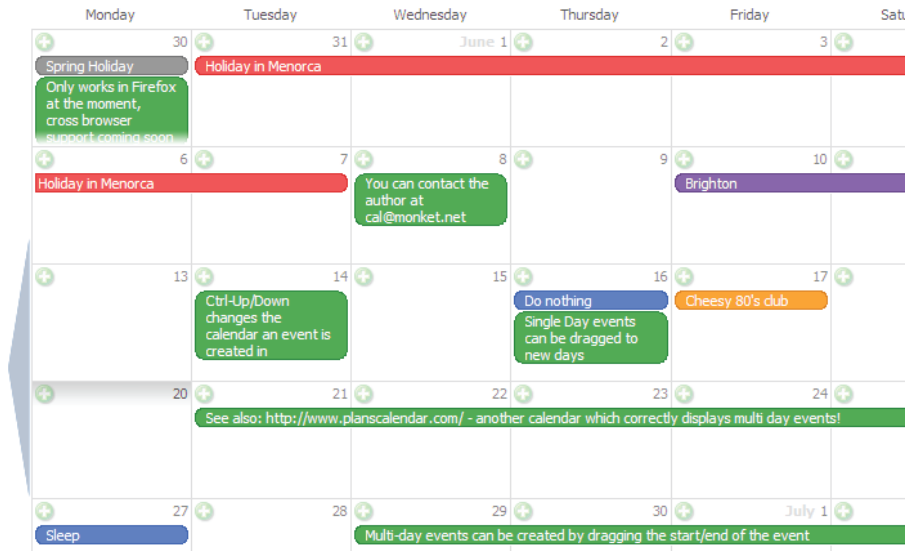

Rental Controller is great for any type of rental shop. Manage all aspects of your rental business including: quotes, reservations and scheduling, rentals, retail sales, delivery and pickup schedules, route/zone maps, billing/invoicing, customer and product management, extensive reporting capabilities, and more.

Accommodate any pricing plan desired, including hourly and daily rentals, packages and specials. You also can set up unique deposit requirements, minimum rental times, and periods per rental item or category.

Other features include: express check-in, damage reports, maintenance alerts, long term rentals.

IDEAL FOR:

- Bicycles & Scooters rentals
- Boats & Charters
- Campgrounds
- Diving equipment
- DVD/Videos
- Parties & Events
- Hotel reservations
- Apartments/Farmhouses
- Studios
- Restaurant reservations
- Tools & Equipment rentals
- Car rentals
- Cinema ticket booking
- Wedding Halls & Party venues

With this software, renters can organize rental activities, keep track of rental units and plan to rent out resources, avoiding associated problems. The program has a handy interface to calculate and show the term of lease, professional events, helping you to make decisions quickly without having to search in endless paper notes, and looking for time available for rent. The program has searching and sorting options to let users easily handle records.

Rental Controller is great to store and keep track of calendars for unlimited number of rental units, such as DVD disks, cars, bikes, boats, scooter, seats, houses, etc.
